

ASTRONOMICAL SOCIETY OF FRANKSTON, INC.NEWSLETTER - AUGUST 1985Meeting, Wednesday August 28th - CHANGE OF PLANS!

It was intended that Jim Park would address the meeting. However, it has recently been announced that noted English astronomer Patrick Moore will be giving a free lecture concerning Halley's Comet on this evening to members of the public at Rusden College in Clayton. It has therefore been decided that Jim will postpone his talk until our October meeting so that he and interested members of our Society may attend the lecture by Patrick Moore. This meeting is to be held at 8 p.m. in Room AB 100, Victoria College, Rusden Campus, 662 Blackburn Road, Clayton; (Melway 70 J.9). The plan of Rusden Campus shows where the meeting is to be held and places for parking.

As the meeting is likely to be well attended it is suggested that those members who wish to share travel arrangements meet at the Chisholm Institute, Frankston Campus in the car park shown on the plan at 7 p.m. so that the last car leaves no later than 7.15 p.m. Members without cars who wish to be picked up should ring Peter Norman, (059) 75-3040 (A/H).

Meeting, Wednesday September 25th

Bruce Tregaskis will lead a discussion concerning the "International Halley Watch Amateur Observers' Manual for Scientific Comet Studies." This handbook has been prepared for use by amateurs around the world, under the auspices of NASA. At least 11 Society members have a copy of this manual and the discussion will be a training session for the months ahead.

ANZAAS, Festival of Science, August 1985: Monash University.

Members may like to attend the afternoon session on Thursday 29th August entitled New Astronomy - Unveiling our Beautiful Universe. Speakers include Patrick Moore (U.K.), Andrew Prentice, (Monash), David Malin, David Allen and Don Matthewson (Siding Springs). The Friday 30th August morning session, led by R. H. Frater (CSIRO) concerns the Australia Telescope Project. Each of these sessions may be attended by booking through any BASS agency at the cost of \$8 (or \$5) per session.
